

Pollard Post

Spring 2018

By Sean Kastantin and Mrs. Sargent

Summer Vacation!

Summer is just around the corner, and that means a break from school, homework, and tests. As the 7th graders leave and prepare themselves for another year at Pollard and the 8th graders get ready for the high school jump, students shouldn't forget about the good times they've had this year with their friends, teachers, and the rest of the wonderful staff at Pollard! But what people think about most over summer is the vacations, and we hope you all have a fun, safe and happy vacation. See you next year!

Spring Sports

Here we see the Pollard boys volleyball team practicing together in the green gym and the track team about to leave for states competition. Pollard sports go year round, with sports like track, volleyball, ultimate frisbee, and softball in the spring, and basketball, and girls volleyball in the winter.

On the following page, you can see how the Pollard representatives times were recorded at the Massachusetts Middle School Track and Field Championship Meet on June 2.

100 m

Girls

Samantha Dauria 14.40

7TH GRADE FIELD DAY FRIDAY JUNE EIGHTH

Field day is an annual event made for the seventh grade students and teachers, with the clusters pitted against each other in a show of fun and athleticism. Cluster three managed to walk away victorious, with cluster 1 coming in second and cluster 5 just one point behind them. While cluster four dominated the tug of war, other teams were able to pick it up and make a run, forcing them out of the top 3.

A big thank you is in order for the Pollard Staff for organizing such a fun day. Team spirit was really up, but so was the temperature, reaching a high of 81 degrees! However, the turf made it feel a solid 10 degrees hotter, coming from Mrs. Eaton, making the real feel a sweltering approximate 91 degrees!

As always, field day was a way for clustermates to bond and learn the importance of teamwork to work towards a common goal.
